# **REEL TITLE : Exclusive Interview with Mr. Market Rate(shoot)**

## **SCENE 1**

**Host:** "Welcome, Mr. Market Rate."

"The entire country has one question..."

**"Asalu... market rates enduku intha perigipoyayi?"**

## **SCENE 2 (Funny Hook)**

**Mr. Market Rate** (*leans back confidently*)

"Morning protein shake..."

Afternoon energy drink...

Night health tonic..."

Host looks confused.

"Ante..."

Mr. Market Rate smiles.

**"Anni kalipi thaganu... andhuke intha periganu.."**

(Both laugh.)

## **SCENE 3 (Professional Transition)**

Mr. Market Rate straightens up.

"Jokes apart..."

The real reason is much bigger."

## **SCENE 4**

**Host:** "So... what actually increases market rates?"

## **SCENE 5**

**Mr. Market Rate:** "An electronic product doesn't travel directly from the factory to your home.

Before it reaches you..."

Many costs increase."

(Quick cinematic visuals)

- Manufacturing Cost
- Shipping & Logistics
- Fuel Prices
- Global Events & Supply Chain Disruptions
- Warehousing
- Labour Costs

"Every increase adds a small cost...

And finally...

That reflects in the market price."

## **SCENE 6**

**Host:** "So, are international conflicts also one of the reasons?"

## **SCENE 7**

**Mr. Market Rate:** "Yes.

When global conflicts affect oil prices or shipping routes...

Transportation becomes more expensive.

Imported electronics and components can also cost more.

But remember...

It's never just one reason.

It's the combination of all these factors."

## **SCENE 8**

**Host:** "Then how is Vijay Digital offering selected products at Old Prices?"

## **SCENE 9**

**Vijay Digital Executive enters the frame:**

"We can't control the global market.

But we can control our commitment to customers.

That's why selected products are still available at Old Prices...

Along with Best EMI options."

**END FRAME**

**The Market Changes.**

**Value Doesn't.**

**Vijay Digital**

**Old Prices | Best EMI**
